

Home

Thorin provides Electronic Data Capture (EDC) Solutions & Services to the Pharmaceutical-, Biotech- and Medical Device Industry.

NEW: Thorin has developed a web-based Clinical Study Portal which facilitates communication and collaboration between Sponsors and Sites.

DataFax

DataFax Clinical Trial Management system supports data collection by both Electronic Data Capture (EDC) and Fax collection in the same study. Within the same System and Study Setup, it allows to select the method which best fits a Study, a Site or a Country.
